SRIYADHAV R

8778323996 sriyadhavr02@gmail.com linkedin.com/in/sriyadhav-r github.com/sriyadhavR08

CAREER OBJECTIVE

Motivated Computer Science Engineering student with strong knowledge in Python, Web Development, and AI technologies. Skilled in developing real-time applications using YOLOv8, IoT, and Full Stack Development. Looking for an opportunity to apply technical and problem-solving skills in a growth-oriented organization.

ACADEMIC CREDENTIALS & COURSES

Dr. N.G.P Institute of Technology *2023 – 2027*

- Pursuing Bachelor of Computer Science and Engineering, gaining strong knowledge in programming, software development, and core computer science concepts.
- Maintaining a CGPA of 8.87 with consistent academic performance.

Karur Saraswathi Vidhyalaya, Karur *2022 – 2023*

- Completed 12th Grade (Higher Secondary Education) – 2023
- Secured 87.6% in Higher Secondary Examination.

CO-CURRICULARS

Livewire Academy, Karur *Apr 23 – Aug 23*

- Completed Python Programming Course at Livewire Academy, Karur, developing skills in Python fundamentals and practical programming.
- Learned advanced Python concepts including Object-Oriented Programming (OOP), Regular Expressions, and Database Programming.

Indra Institute of Education, Coimbatore *Jul 25 – Dec 25*

- Completed PyCloud Architect Course at IIE, Coimbatore, gaining hands-on knowledge in full-stack development and cloud technologies.
- Learned Frontend: HTML, CSS, JavaScript, Bootstrap, ReactJS; Backend: Node.js; Database: XAMPP (phpMyAdmin); and Cloud fundamentals.

TECHNICAL SKILLS

Programming Languages: Python, Java
Web Technologies: HTML, CSS, JavaScript, ReactJS
Backend: Node.js
Database: MySQL
Tools: GitHub
Technologies: YOLOv8, Machine Learning, IoT

AREA OF INTEREST

- Web Development

- Software Development
- Full Stack Development

PROJECT

Food Delivery Web *Dec 2025*

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive food delivery web application for online food ordering
- Implemented user authentication, restaurant listing, cart, and payment features
- Designed an interactive UI for smooth customer experience and easy navigation
- Improved order management and delivery tracking for efficient service handling

Smart Agriculture *Mar 2026*

Technologies: Python, HTML, CSS, JavaScript

- Implemented automated irrigation using soil moisture and weather data
- Added crop recommendation and disease detection features using AI techniques
- Improved farming efficiency and reduced water wastage through smart monitoring

Instagram Sentiment Analysis in Social Media *Apr 2025*

Technologies: Python, Machine Learning, NLP, Pandas, Scikit-learn

- Developed an Instagram sentiment analysis system to analyze user comments and feedback
- Implemented Natural Language Processing (NLP) techniques for text preprocessing and sentiment classification
- Classified comments into positive, negative, and neutral sentiments using machine learning models
- Improved social media analysis by providing insights into user opinions and engagement trends

Early Detection of Mosquito Larvae in Water Doctor *Apr 2026*

Technologies: Python, YOLOv8, OpenCV

- Developed an AI-based mosquito larvae detection system using YOLOv8
- Trained custom datasets for accurate larvae detection
- Implemented real-time image and video prediction
- Improved public health monitoring through early detection

LANGUAGE KNOWN

Languages: Tamil, English, Hindi (only written).

INTERNSHIP

Generative AI Intern – Gateway Software Technology

- Worked on AI concepts and intelligent application development
- Learned prompt engineering and AI model integration
